

NIGEL KOK JIA WEI

Bukit Jalil, Kuala Lumpur, Malaysia • Open to relocate • nigelkok3329@gmail.com • +60-19-860-8665 • linkedin.com/in/nigelkok

Internship availability: 27 July 2026 – 15 November 2026

PROFESSIONAL SUMMARY

Year 2, Semester 2 Cloud Engineering undergraduate at Asia Pacific University — completing a programme-required internship before advancing to final year — with internship experience in a live production fintech application and academic project work in backend architecture and database design. Holds three completed modules of the MY5G Ericsson Malaysia Pioneers Programme, covering 5G fundamentals and network infrastructure. Combines cloud engineering coursework with practical production exposure and trilingual communication ability (English, Bahasa Malaysia, Mandarin). Seeking a Cloud Engineering, DevOps, or Infrastructure internship in Kuala Lumpur.

EDUCATION

Asia Pacific University (APU)

Kuala Lumpur, Malaysia | 2025 – Present

Bachelor of Science (Hons) in Information Technology — Cloud Engineering

Relevant coursework: Cloud Computing, Computer Networks, Software Engineering, Database Systems.

Currently in Year 2, Semester 2 (2025–2026). Internship is a programme requirement for progression into final year.

Universiti Teknologi Sarawak (UTS)

Sarawak, Malaysia | 2022 – 2023

Foundation in Arts

Kian Kok Middle School

Kota Kinabalu, Malaysia | 2016 – 2022

PROJECTS

Cloud-Based Data Centre Infrastructure Design

Mar 2026

- Designed a multi-tenant commercial cloud data centre architecture addressing service offerings, scalability, and reliability for a client brief.
- Developed a 7-layer network topology across dual server halls with multi-ISP redundancy and built a 3D model of the facility monitoring room and its fire suppression system.

GogoCoffee – Multithreaded Café Simulation System

Apr 2026

- Designed and implemented a Java multithreaded café simulation modeling baristas, customers, and shared resources as concurrent threads with capacity and queuing constraints.
- Delivered complete source code, system documentation, and a written analysis report.

KODOMO – Children's English Learning Platform

Sep 2025 – Dec 2025

- Contributed to an ASP.NET Web Forms (C#) e-learning platform serving children, parents, and administrators.
- Reviewed and revised the Software Requirements Specification and use-case diagram, then designed and built a Rewards System feature with a reward shop, claim flow, and new database tables.

Oval Damansara Tower Suites – Property Website Rebuild

Apr 2026 – May 2026

- Rebuilt a corporate property website from scratch using React, TypeScript, Tailwind CSS, and Vite, replacing an outdated static site with a modern component-based web app.
- Designed the UI system in Figma and implemented a tenant directory, events calendar, property notices system, and a PDPA-compliant complaint form.

Hotel Reservation System – UML Sequence Diagram

Dec 2025

- Modeled the end-to-end hotel reservation process — login, room and service selection, invoice generation, payment, and confirmation — as a UML sequence diagram built in draw.io.

EXPERIENCE

Sarawak Pay Global

Sarawak, Malaysia | 2023 (1-Month Internship)

Application UI Developer Intern

- Built UI components for a live production fintech mobile application used by real customers.
- Identified and helped resolve bugs within a real production environment during the internship period.
- Collaborated with the development team to maintain consistent design standards on active releases.

CERTIFICATIONS & TRAINING

MY5G Ericsson Malaysia Pioneers Programme — Modules 01, 02 & 03 | 2025

Digital Nasional Berhad & Ericsson • Issued by Ericsson Connect To Learn

- Completed three structured modules covering 5G fundamentals and network infrastructure.

Cisco Networking Academy (NetAcad) | 2026

Institutional access via APU

- Currently progressing through Python Essentials, Linux Essentials, and CCNA modules.

Plug-and-Play AI: How to Build Applications with Chutes.ai | 2026

Workshop — Chutes.ai & APU AI Club (APUAIC), Asia Pacific University

SKILLS

Languages & Frameworks: Java, C#, ASP.NET, JavaScript, TypeScript, Node.js, React, SQL, MySQL. Networking: TCP/IP, subnetting, VLANs, LAN/WAN troubleshooting, Cisco IOS (in progress). Infrastructure & Cloud: Multi-tenant cloud architecture design, 7-layer network topology, Linux CLI (in progress). Tools: Figma, Git, AI tools, UI/UX design.

Soft Skills: Teamwork, Communication, Problem-solving, Adaptability, Time management.

Languages: English (fluent), Bahasa Malaysia (fluent), Mandarin Chinese (conversational).

Interests: Cloud computing, network engineering, software development, artificial intelligence.
